I was looking for a course with genuine hands-on experience, and SREES Academy delivered. The project, where we had to design a comprehensive employee onboarding program, was fantastic. We built checklists, welcome packets, & training schedules. It was practical, not just academic.

Abdul Parwaz Mohammed
HR Assistant

I'm so glad I chose SREES Academy. Other courses seemed to be all lectures. Here, we were put into teams to handle case studies on employee relations and compliance. It felt like we were a real HR department solving real problems. Invaluable.

Neena Francis

A truly appreciative course. They don't just throw information at you. They guide you through practical scenarios, from hiring to exit interviews. I finally understand the entire employee lifecycle because I've had hands-on practice with every single step.

I did an online PHRM course at Srees Academy, and it was an amazing experience! The course was well-structured. I got to learn all the HR concepts both theoretically and practically. The classes were taken by Naomi ma'am, and she was absolutely wonderful. You'll never get bored in her class – she makes every session interesting and easy to understand with real-life examples. She's very helpful, approachable, and not at all judgmental, which really boosts your confidence while learning
